Summary

- Junior Software Developer with strong expertise in React, including hooks, state management (Redux), and reusable component architecture. Skilled in building responsive and high-performance web applications, integrating RESTful and GraphQL APIs, and ensuring optimal user experience. Proficient in JavaScript, Node.js, Express, MongoDB, and PHP, with hands-on experience in e-commerce development and Magento customization.

Technologies

Languages/Frameworks: HTML, CSS, Javascript, C, PHP, React, Redux, Jquery, Magento(Adobe Commerce), Nodejs, Tailwind, Bootstrap, Mysql, Mongodb, Nextjs.

Experience

Junior Software Developer, Krish Technolabs

Sep 2023 – Present

- Built dynamic and reusable UI components in Adobe's PWA Studio using React, contributing to the development of modern, high-performance Progressive Web Applications for Magento-based storefronts.
- Created custom React hooks to modularize and encapsulate frequently used logic, significantly improving code maintainability and developer productivity across multiple project modules.
- Integrated GraphQL APIs to efficiently fetch and manage data, ensuring smooth, real-time interactions across the application and reducing page load times.
- Utilized Redux for managing complex global state across various components, enabling predictable data flow and improving scalability for large-scale applications.
- Collaborated on the implementation of Magento 2 B2B features, including company accounts, requisition lists, and shared catalogs, enhancing functionality for enterprise clients with custom business logic and workflows.
- Worked closely with cross-functional teams including back-end developers and QA engineers, participating in code reviews, debugging, and optimizing application performance.

Trainee Software Developer, Krish Technolabs

Jan 2023 – Aug 2023

- Completed intensive training in React, Node.js, Magento 2, MySQL and PHP, gaining full-stack development experience across modern web technologies.
- Designed and developed a Capstone e-Commerce project that features core functionalities such as user authentication, product listing pages (PLP), product detail pages (PDP), add-to-cart logic, and protected routes to manage user access and roles.
- Complete CRUD operations were implemented using Express.js, Node.js, and MySQL for back-end services, while leveraging React and Redux on the front-end to manage application state and user interactions.
- Followed best practices in project architecture, state management, and RESTful API integration, demonstrating end-to-end application development skills.
- Gained hands-on experience in building scalable, responsive, and secure web applications in a real-world development environment.

Projects

Money Tracker

A personal finance web app that helps users track their daily expenses and manage budgets effectively.

- Implemented features for adding, editing, and deleting daily transactions, and calculating suggested daily spending limits based on user income patterns.
- Ensured responsive design and seamless user experience across devices using React.js and ShadCN UI.
- Developed APIs with Node.js and MongoDB to store, retrieve and manage user financial data securely.
- Employed clean architecture principles and optimized performance for smooth, real-time interactions.
- Tech Stack: React.js, Node.js, MongoDB, ShadCN (UI library)

Spectrom

A dynamic web platform for managing and registering participants for multiple college events.

- Developed a comprehensive dashboard that displayed event details such as rules, participation type (individual/group), venue, and fees.
- Enabled user registration functionality and integrated validation logic for form submission.
- Designed the front-end using JavaScript, jQuery, and Bootstrap, and built a secure back-end using PHP and MySQL.
- Tech Stack: PHP, JavaScript, jQuery, MySQL, Bootstrap

Education

B. Tech CE, RK University (Rajkot). 2020 – 2023

- GPA: 7.9/10

Diploma CE, Om Institute of Technology (Junagadh). 2018 – 2020

- GPA: 9.11/10

Certifications

- Reactjs (HackerRank)
- Adobe Certified Professional - Adobe Commerce Developer
